An Apology

Magnapop

An apology
You heard it all from me
Complacent and
Repetitious
There's nothing wrong
I'm walking 'round without a second thought
I really mean it
This time I hear
I hear you call and contemplate the future
call and ask me what's for dinner
I'll make it clear
I'll mark the path for you if you want me to
And take you there
I'll listen hard for you
I'll open up the lines to you
Fracture my bad mood for you
This is an apology
I'll take a chance with you
I'll walk away
I'll say it too
I'll never lie
I'll always try
To give you what you'll never find
An apology
You've heard it all from me
Complacent and
Repetitious
I'll listen hard for you
I'll open up the lines to you
Fracture my bad mood for you
This is an apology
I'll take a chance with you
I'll walk away
I'll say it too
I'll never lie
I'll always try
To give you what you'll never find
