Atom In My Heart

Frank Black

Is there a place that you can go back to?
Is there a town you can't even enter?
Maybe there are whole states
You don't even wanna pass through
Are you getting down? Now you're a weekly renterIs your mind gone, are you dog tired?
Do you feel like it can't get no worse?
I'm a big guy, can we try this?
I will be the whole universe and you be the centerYou burn inside me like a star
An atom in my heart, an atom in my heartIs your mind gone, are you dog tired?
Do you feel like it can't get no worse?
I'm a big guy, can we try this?
I will be the whole universe and you be the centerYou burn inside me like a star
An atom in my heart, an atom in my heartI know a place, it was made for you
The earth is warm and the sky is timber
