

# The Happiest Street In The World

## Qypthone

Youâ€™re on the happiest street in the world  
Yes itâ€™s the happiest street in the world

If you feel lonely and you need a friend  
I know a place on which you can depend  
A place thatâ€™s quiet and always nearby and you know there  
No ones a stranger, the doors open wide  
And what good things youâ€™ll find waiting inside  
The smiles, the kindness, all troubles behind when you go there

Youâ€™re on the happiest street in the world  
Yes itâ€™s the happiest street in the world

Sometimes you worry, youâ€™re down on your fears  
But when youâ€™re with us, those all disappear  
Well be together, our friendship will grow  
So you see

Sun always shining, the sky always blue  
And someone loving is waiting for you  
Itâ€™s not so far from the place that you are  
Please come be here

Youâ€™re on the happiest street in the world  
Yes itâ€™s the happiest street in the world  
Youâ€™re on the happiest street in the world  
Cause itâ€™s the happiest street in the world

If you feel lonely and you need a friend  
I know a place on which you can depend  
A place thatâ€™s quiet and always nearby and you know there  
No ones a stranger, the doors open wide  
And lots of things youâ€™ll find waiting inside  
The smiles, the kindness, all troubles behind when you go there

Youâ€™re on the happiest street in the world  
Yes itâ€™s the happiest street in the world  
Youâ€™re on the happiest street in the world  
Cause itâ€™s the happiest street in the world  
Youâ€™re on the happiest street in the world
