Let's Dance

Vanessa Hudgens

It's so hot, I can't stop
The music fills the room
Vibrations, sensations
That beat goes boom boom boomI've got to keep it together
I've got to keep it together
I've got to keep it together
Watch the crazy people danceLet's dance
Show me, hold me, control me
Let's dance
Take me, shake me, make meJust like that, don't hold back
Get crazy on the floor
We'll have fun all day long
And then we'll still want moreI've got to keep it together
I've got to keep it together
I've got to keep it together
Watch the crazy people danceLet's dance
Show me, hold me, control me
Let's dance
Take me, shake me, make meLet's dance tonight
Show me feels so right
Hold me, hold me tight
Control meLet's dance right now
Take me spin me 'round
Shake me shake me down
Make meLook in my eyes
You'll realize
We can't denyI'm into you
And you're so into me
I know you can't fight
What is meant to be
Let's dance, I'm hereLet's dance tonight
Show me feels so right
Hold me, hold me tight
Control meLet's dance right now
Take me, spin me 'round
Shake me, shake me down
Make meLet's dance tonight
Show me feels so right
Hold me, hold me tight

Control meLet's dance right now
Take me, spin me 'round
Shake me, shake me down
Make meLet's dance
