# She's Going Out of My Mind

## [Jimmy Buffett](#)

I talk to her pictures and stare at the walls
And my friends come and offer their help
To my back they're afraid that I'm losing it all
To my face they say I'm not myselfAnd they name all the doctors they think I should see
But they don't understand it's not meShe's goin' out of my mind
And I'm showin' all of the signs
I thought that our love was one of a kind
Now she's goin' out of my mindThe place that I kept her has suited her well
Though it's not where she wanted to be
And from up on that pedestal I couldn't tell
That she'd rather be down here with meNow she just tells me how we can't relate
But she leaves out the part I can't takeShe's goin' out of my mind
And I'm showin' all of the signs
I thought that our love was one of a kind
Now she's goin' out of my mindThere's a tear in her eyes as they drive me away
And I turn to the doctors and say"She's goin' out of my mind
And I'm showin' all of the signs
I thought that our love was one of a kind
Now she's goin' out of my mind
Yeah, she's goin' out of my mind"
