Human

Shayne Ward

You are not alone, whoa, whoa
Let's go outside, there's something beautiful to see
Go outside where there's room to breathe
Let's find somewhere where we can talk it over
I'm on your side
When your heart is hurting, when nothing is working
Let me through the door 'cause I've been there before
When your world is shaking and your energy is fading
Just let me through the door 'cause I've been there before
You are not alone, whoa, whoa
You are not alone, whoa, whoa
(We're just human)
On the inside, I am you and you are me
On the inside, the scars no one can see
We're all hurting, there's no immunity
So turn to me, turn
When your heart is hurting, when nothing is working
Let me through the door 'cause I've been there before
When your world is shaking and your energy is fading
Just let me through the door 'cause I've been there before
You are not alone, whoa, whoa
You are not alone, whoa, whoa
(We're just human)
You are not alone, whoa, whoa
You are not alone
Human, human, human, we are all, all the same
We are human, human, human, different faces, different names
We are human, human, human, we can never be replaced
We are human, human, human, we are all, all the same
When your heart is hurting, when nothing is working
Let me through the door 'cause I've been there before
When your world is shaking and your energy is fading
Just let me through the door 'cause I've been there before
When your heart is hurting, when nothing is working
Just let me through the door 'cause I've been there before
When your world is shaking and your energy is fading
Just let me through the door 'cause I've been there before
You are not alone, whoa, whoa
(We're just human)

You are not alone, whoa, whoa
(We're just human)
You are not alone, whoa, whoa
(We're just human)
You are not alone, whoa, whoa
(We're just human)
