

All or Nothing

KT Tunstall

How come? I'm always running low
I really got myself at back
I walk through every open door
Feeling I'm feeling slaughter to my back
I have all my love to give
The room is emptiness to thrill
This is how I'm gonna live
And I'm gonna live until
I'm only how hold is it to understand
My need for freedom to survive
I don't need no confirmation
That my spirit is alive
I won't ever give it up regardless all the mess I'm in
Hope we live in to look
If I'm living in sin
It can get lonely
I'm giving it all or nothing I never take the time to look behind
What's the point in that
When this could be something
To lead me to a live
This new way
I can do it my way
Don't give me any low excuse
To lift my foot up of the pedal
