

# Seashell Tale

## Bright Eyes

Two three four Let's go place some money on the order of the horses  
Break the ribbon of that famous finish line  
And we'll gather up our stash babe  
Find a little ranch baby and buy a lonely little pony to ride Well I know I was lucky when the needle came and  
stuck me  
This porcupine came and poked my cactus hide  
So let me finish what I start babe open up your heart babe  
I saw a land of milk and honey in your mind Our flesh and blood has found me in your arms again  
See the whisper of the wind has found your hair again  
And though my heart said give me refuge in you dignity my dear  
All I could do was put a seashell to your ear
