Meet Me In America

Lauren Christy

Sure as the wind blows, we will meet in America
Sure as the sun will keep shining, we will meet in America
When you sleep tight, for me it's the morning light
So I'll cross these waters to be with you in America
Such a long, long time since I've been to America
So sleep tight 'til I am by your sidec
I can fly dreaming through this sky
Or sail today from this bay and I'll be there for you
'Cause I love you, so let's meet in America
Sure as I want to be, oh, with you in America
London's chime sings me a different time

I can fly dreaming through this sky
Or sail today from this bay and I'll be there for you
'Cause I love you
When you sleep tight, for me it's the morning light
Sure as the wind blows, we will meet in America
Sure as the sun will keep shining, we will meet in America
And sure as I want to be with you in America
In America, let's meet in America, let's meet in America
Let's meet in America, let's meet in America
