

Go Outside

Robbie Seay Band

I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing He is our King I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing, yeah He is our King
He is our King No one should be left out
No one should be left out
No one should be left out
And no one should be left out If you have air to breathe
And hear your call to sing I go outside and praise the God
Who mapped the stars out in the sky
And gather 'round with those who love and sing, yeah He is our King
He is our King No one should be left out
No one should be left out, oh, no
No one should be left out
And no one should be left out If you have air to breathe
And hear the call to sing No one should be left out
No one should be left out
And no one should be left out
No, no one should be left out No one should be left out
And no one should be left out, oh, no, no
No one should be left out
No one should be left out Oh, hear the call to sing
Hear the call to sing
Hear the call to sing
No one should be left out Oh, hear the call to sing
Hear your call to sing
Hear your call to sing, to sing It's here
Hear the call, it's calling you to sing, to sing
Hear the call, it's calling you to sing, to sing
Hear the call, it's calling you to sing, to sing And hear your call to sing
Hear your call
Hear this call
No one should be left out
