Overtime

Emma Forman

six in the morning and I've got to start work but I'm so damn tired
Don't get no sympathy from you cos you're too busy sleeping right now
Even the dog looks at me like I'm crazy, she thinks I should still be in bed
and right now that's exactly where i want to beAnd I really need a holiday yeah yeah
Yeah I really need a holidayThis was supposed to be my holidays but I have to work again
This was my only day off but I've been called in
Please Mr Boss I have been loyal worker done my share of overtime
Do me favour and give me a day off real soonCos I really need a holiday yeah yeah
Yeah I really need a holiday
Yeah I really need a holiday
really need a holiday
