

That's Where She Ends Up

Graham Parker

Pre>

G

It's not right the way that you deal with her
She's not something you handle like cash
To be undressed like sunday's leftovers

G d g

To be picked on monday and tuesday in the trash

D g

That's where she ends up
It's not right the way that you don't listen
She's not something you hang on a wall
To be moved at the earliest convenience

Well you say that you love her

You don't love her at all you don't love her at all

Bridge
C

One day you'll look round and she won't be there

G d c

She'll disappear in front of your face

C

She'll walk over you as if you weren't there

G d c

You never really were there anyway (instrumental verse)
You can buy her a slice of the good life

But you're buying time that's all

One day she'll pull out the big knife

Well you say that you love her

You don't love her at all you don't love her at all
