

# Stay

Js

Boy, I wish that it never had to come to this  
It was hard to go another day without your kiss, yeah  
I said some things that I really didn't mean to say  
And I can't let my baby turn and walk away  
So please stay  
Don't leave  
Stay a little while longer  
We can work it out  
Don't leave  
Stay a little while longer  
We can work it out  
Please understand you hurt my feelings too, yes you did  
When you said you don't love me like I do, ooh  
Let's talk about it then we can go from there  
Can't let the time pass by 'cause love still in the air  
So please stay  
Don't leave  
Stay a little while longer  
We can work it out  
Don't leave  
Stay a little while longer  
We can work it out  
I don't leave  
Think about our future baby, ohh yeah yeah yeah  
Don't leave  
'Cause I love you  
Don't leave  
Don't leave, ooh ooh ooh we can work it out  
Stay  
Don't leave  
Stay a little while longer  
We can work it out  
Don't leave  
Stay a little while longer  
We can work it out  
Stay a little while longer  
Till we can work it out  
Stay a little while longer  
Till we can work it out

Stay a little while longer  
Till we can work it out  
Stay a little while longer  
Stay a little while longer  
Stay a little while longer  
Stay a little while longer
