Down

Socialburn

Tell me, how does it feel When it comes to you And all the things you say to me You make me feel like nothing Like nothingWhen you break me down I'll fall apart and Wrestle with myself, inside I'm nothingAnd tell me, how should I feel When it comes to you And all the games you play on me You still make feel like nothing Like nothingWhen you break me down I'll fall apart and Wrestle with myself, inside I'm nothingWhen you break me down When you break me down When you break me down And all the things you do Like nothing, like nothing Tell me, how should this feel When it comes to you And all the things you do, to me This makes me feel like nothing Like nothingWhen you break me down I'll fall apart and Wrestle with myself, inside I'm nothingWhen you break me down I'll fall apart and Wrestle with myself, inside I'm nothingWhen you break me down When you break me down I'm nothing
