

# Anus Of Uranus

## Klaatu

Late last night  
While wishing on a star  
Down from the sky  
Came a man in a car  
He said "Get in Jackson  
Come on, let's go for a ride"  
Outta sightSitting in a cockpit  
Strapped down in a chair  
I said "Hey, tell me  
What's that over there?"  
He said "Meet my computer  
He's a friendly son-of-a-gun"  
And we're having funPlaying cards on Venus  
In a cloudy room  
Pass a glass of ammonia  
I've got to get off soon  
Sunbathing on Mercury  
Or jamming on Jupiter  
Which do you prefer?It's getting pretty late  
I got to go home  
Nice to have met you  
What's your telephone?  
Maybe soon I'll call you  
If I can afford the fare  
It's long distance out there
