When I Pray

Salvador

Well, it's another day and I'm thinking about
The things I wanna say but my thoughts are like clouds
Drifting far away, well, I admit I doubt sometimes
That I'm on Your mindI'm just another face looking up from the crowd
Searching for a way to talk to You now
Sometimes I feel small in the scope of it all
And then I'm reminded againThat the very same God that dreamt of the oceans
And set the stars into place, well, He knows me by name
The very same God that put the world into motion
Is listening today, He hears what I say
When I pray, oh when I prayI thank You for the faith that keeps me inspired
That tells me everyday how much You desire
Just to hear from me, I can't tell You how much that means
It's so hard to conceiveThat the very same God that dreamt of the oceans
And set the stars into place, well, He knows me by name
The very same God that put the world into motion
Is listening today, He hears what I say
When I prayAnd I believe that You're with me
Lord when I'm on my knees
Your timeless mercy rescues meThat the very same God that dreamt of the oceans
And set the stars into place, well, He knows me by name
The very same God that put the world into motion
Is listening today, He hears what I sayThe very same God that dreamt of the oceans
And set the stars into place, well, He knows me by name
The very same God that put the world into motion
Is listening today, He hears what I say
When I pray, when I pray
