Adriana

Wanda SÃ¡

adriana you never saw it comingno time to think, much less react to the knife in your back
go burn a hole in the world , start walking
i'll be the one when i'm done double talking to youtake a second now, take the rest of your life
what's integrity when you can ooze on through to the other side?
if i put my mind to it i can figure it out
if i put my mind to it i can figure it out
if i put my mind to it i can figure it outif i put my mind to it i can figure it out
swarmed without end, how can you even pretend?
i'll stay you go. outside that i just don't knowgo burn a hole in the world start walking
i'll be the one when i'm done double talking to youtake a second now, take the rest of your life
if i put my mind to it i can figure it out
what's integrity when you can ooze on through to the other side?if i put my mind to it i can figure it out
if i put my mind to it i can figure it out
if i put my mind to it i can figure it out
everyone stop screamingjust wrap your teeth around me
and hold me to this line
(the next time you see, you'll see it will not be me
the next time you see, you'll see it will not be me)
these scars are ours for all time
what's integrity when you can ooze on through to the other side?take a second now, take the rest of your lifeif i put my mind to it i can figure it out
if i put my mind to it i can figure it out
if i put my mind to it i can figure it outif i put my mind to it i can figure it out
