

# Steve McQueen

## Lambchop

And if I never live to see another day  
Oh, I guess that have to be alright by me  
How come we never say what it is that we want to say  
Is this just another way to be meanMean, mean  
Not Steve McQueen or free of worryAnd if you never have the need to look the other way  
But how could this be good for me?  
Let's hope we all prevail to love, take a pill or take a pause  
But this is not at all what it seemsSeems, seems, seems, seems  
Or take me serious
