

neighbor, neighbor

[Hughes, Jimmy](#)

Neighbor, neighbor
Why you messin' in my life?
Neighbor, neighbor
You've been talkin' to my wife Tellin' her you seen me
Runnin' wild the other night
Runnin' wild the other night A neighbor, neighbor
There's always one in every crowd
A neighbor, neighbor
Tellin' lies and talkin' loud You better watch your step now
You might fall off your cloud
You might fall off your cloud Now I was walking down a dusty road
When along came a neighbor of mine
He saw me walkin' with my head hung down
He just had to stop and pass the time A neighbor, neighbor, neighbor
Floatin' in the salty brine
Floatin' in the salty brine
