

# Take It Easy (RAC Maury Mix)

## Surfer Blood

You and me could it be meant to be  
Nothings wrong when I'm with you  
The ice in me is melting rapidly  
Now I'm a believer tooUp all night I shiver with delight  
Everytime I hear your song  
I can't believe you're everything I need  
Mama you can do no wrongI wish I knew everything it takes to get along  
Then we should take it easy or we will both be sorry  
Then we should take it easy, take it easy  
Or we both be sorry  
Let's take it easySometimes I think about what I would do without  
Who knew we could be such friends?  
Dreaming of your love and warm and touch  
When can I see you again?Up all night I shiver with delight  
Everytime I hear your song  
Dizzy with anticipation  
How's everything coming along?I wish I could do whatever it takes to get along  
Then we should take it easy or we will both be sorry  
Then we should take it easy, take it easy  
Or we will both be sorry, or we will both be sorry
