

No Way Out

[Julie Roberts](#)

Momma is cryin in the kitchen
Even the dog can feel the chill
She lays her head down on the table
Next to a stack of unpaid bills Oh, Daddy puts his arms around her
He says, Girl, your stocking's startin to run
I know it aint never been easy
But aint it always been fun, fun, fun?" Fell in love and theres no way out
Fell in love and theres no way out
Sometimes you just gotta laugh about it
Fell in love and theres no way out Daddys cussin in the backyard
Hes got the engine hangin from a tree
Hes kickin the tires on the T-Bird
And says, T, you aint gonna get the best of me Oh, Momma comes dancin out the back door
Snappin a dish towel in her hand
She said, Dont be wastin all the good energy
Dont you know how I love a sweaty man, oh man, oh man?" Fell in love and theres no way out
Fell in love and theres no way out
Sometimes you just gotta laugh about it
Fell in love and theres no way out Fell in love and theres no way out
Fell in love and theres no way out
Fell in love and theres no way out
We fell in love and theres no way out Fell in love and theres no way out
Fell in love and theres no way out
Sometimes you just gotta laugh about it
We fell in love and theres no way out We fell in love and theres no way out
Fell in love and theres no way out
Sometimes you just gotta laugh about it
We fell in love and theres no way out
