

# Suffocation

## Crystal Castles

We ignore, refused consent  
Animals do not repent  
Courtesy to intervene  
Weathered down my selfish needs I suffocate  
And promise me you won't resuscitate  
And if I change my mind it's far too late I'm wasting my days as I've wasted my nights  
And I've wasted my youth  
You're waiting for something you've waited in vain  
'Cause there's nothing for you, suffocation Humility yet to be seen  
Models made of plasticine  
Morality disgrace us now  
Entertain and take a bow I suffocate  
And promise me you won't resuscitate  
And if I change my mind it's far too late I'm wasting my days as I've wasted my nights  
And I've wasted my youth  
You're waiting for something you've waited in vain  
'Cause there's nothing for you, suffocation
