

Night Nurse

Cascada

Night Nurse-urse

Night Nurse-urse

It's critical

'Cause your body's gonna rock just like a chemical

Makes you bouncin' around the block just like an outlaw

We're gonna take it to the top, 12 o' clock

That's it

Guess who's on a night shift

'Cause tonight I'm working over time

Oh, are you ready to cross the line?

I'll treat you until the break of dawn

You're not alone

Night Nurse-urse

Night Nurse-urse

Who you gonna call?

Night Nurse-urse

Night Nurse-urse

Who you gonna call?

Don't wanna be your lover, oh no

But I could be your remedy, oh oh

I don't wanna be your lover, oh no

But I could be your remedy, your cure

Night nurse

It's physical

'Cause tonight we're gonna party on the top floor

Elevate you there and I don't care if it all comes natural

Your medical prescription

Baby, get ready now

This is my religion

'Cause tonight I'm working over time

Oh, are you ready to cross the line?

I'll treat you until the break of dawn

You're not alone

Night Nurse-urse
Night Nurse-urse
Who you gonna call?
Night Nurse-urse
Night Nurse-urse
Who you gonna call?

Don't wanna be your lover, oh no
But I could be your remedy, oh oh
I don't wanna be your lover, oh no
But I could be your remedy, your cure
Night Nurse-urse

I am not the enemy, let me be your remedy
I am not the enemy, let me be your remedy

It's critical
'Cause your body's gonna rock just like an outlaw
Who you gonna call?

It's physical
'Cause tonight we're gonna party on the top floor, party on the top floor,
party on the (free, free, fall)

Night Nurse-urse
Night Nurse-urse
Who you gonna call?
Night Nurse-urse
Who you gonna call?
Night Nurse-urse
Who you gonna call?

Don't wanna be your lover, oh no
But I could be your remedy, oh oh
I don't wanna be your lover, oh no
But I could be your remedy, your cure
