

# Lonely Nights

McAuley-Schenker Group/Michael Schenker/MSG/Robin

No more lonely nights  
For everybody that find's their way

Someone is lost

For everybody who feels the fear  
I'll take half the pain that you hide

Inside

Chorus:

If it's meant for you, it won't pass you by,

Don't live your life on the line

Like a carousel, it'll turn around, so many times

We might change a bit, doesn't everyone,

Lost in the moment we find

And madness is right, when you're by my side,

No more lonely nights

So many words that I meant to say

Don't come out right

So many chances I have to take

Girl if I've never told your before

Your beautiful

Chorus

Everytime that we kiss you take me breath away

I could talk for the world but you can silence me

I get lost in your arms when you're holding me

No more lonely nights

If it's meant for you, it won't pass you by

Chorus(
