We Were Meant To Be

Khia

We were meant to be
I'm that bitch that makes you moan, keep that body hot
You were made for me
I'm that bitch that makes you moan, keep that body hotMe an' you we were meant to be
But you already have a happy family
But nigga I'm not happy 'cause you're not with me
An' nigga she's not happy 'cause you're lovin' meOr is it lustin' me or just fuckin' me
Nigga, why you seein' me? It's what you wanna see
I was fool, set it up on top of you
Lookin' good, slow fuckin' an' I'm lovin' youI'm that bitch that makes you moan, keep that body hot
Real good drama, love never wanna stop
I love you nigga, need you nigga in my life to stay
With me forever make a way for me an' you to be'Cause I don't see another nigga when it comes to you
I never need another nigga, all I need is you
I know you feel me, hear the love in these words I say
I want you nigga for myself, we were meant to beIt was plain to see, we were meant to be
I'm that bitch that makes you moan, keep that body hot
I was made for you, you were made for me
I'm that bitch that makes you moan, keep that body hotMe an' you, we was meant to be
I was made for you an' you were made for me
Us sittin' home, late at night, sharin' our hopes an' dreams
Or tell me, was those all lies that you told to me?When you were holdin' me, takin' control of me
Can't go home still, I'm sleep 'cause when you're gone, I weep
Thinkin' about what you're doing while you're home with her
Thinkin' about what she doin', why you ain't leaving her'Cause you deceivin' her, you don't believe in her
You 'posed to be with me, it's where you wanna be
Always goin' home late, tellin' lies to her
You know I need you, us together is what we both preferI'm that bitch that keeps you goin', keep that body hot
Real good drama, love never wanna stop
I love you nigga, need you nigga in my life to stay
You know me an' you we were meant to beIt was plain to see, we were meant to be
I'm that bitch that makes you moan, keep that body hot
I was made for you, you were made for me
I'm that bitch that makes you moan, keep that body hotCall me lover, friends to the end, I'll forever be true
Gives a fuck what they say, how I'm stupid for you
I feel the joy in my heart an' I know it's true
I feel the bond, me an' you when you step in the roomSee butterflies in your eyes when I'm lookin' at you
Feel warm inside when we lie playin', suckin' us too
An' you show me when you smile, I be wantin' to cry

How you touch me deep inside, I be wonderin' whyIf it ain't meant to be, if you ain't made for me
Why is it that I'm weak? Shit, I can hardly sleep
Thinkin' 'bout what you doin' while you home with her
Thinkin' 'bout what she doin', why you ain't leavin' herI'm that bitch that makes you moan, keep that body hot
Real good drama, love never wanna stop
I love you nigga, need you nigga in my life to stay
With me forever make a way for me an' you to beIt was plain to see, we were meant to be
I'm that bitch that makes you moan, keep that body hot
I was made for you, you were made for me
I'm that bitch that makes you moan, keep that body hotIt was plain to see, we were meant to be
I'm that bitch that makes you moan, keep that body hot
I was made for you, you were made for me
I'm that bitch that makes you moan, keep that body hotYou an' me, we were meant to be
I was made for you, you were made for me
Baby, can't you see that it's killin' me?
I'd rather have you home with me
I'm that bitch that makes you moan, keep that body hot
