

# Stunt On You

Drake

[Verse 1]

Its ten oclock on a Wednesday and I know your home  
Driving up and down your street hoping that you come outside  
Cause I just got paid and I went and bought the car you wanted

And I just need you to see me (ohh)  
Childish as it seems itll make it all better (better)  
Selfish as it is this just aint about you (no)  
Did me wrong every time were together (gether)

[Bridge]

And thats why Im gonna stunt on you  
Im gonna stunt on you  
You let me go, little did you know  
I could have made it all on my own.
