# For Miles Around (Scratch To Void)

## People In Planes

I've been used
Scratched and chewed
Why don't you
Ever choose
Someone's run off with my bag
Then the mannequins attack
But no one's looking that bothered
Why is no one that bothered?All this time
I've been usedZilch to do
For miles around
No one but you
For miles aroundI have issues
With good news
I don't trust
Them of you
Cause the side effects are huge
Now the marching band won't move
And no one's looking that bothered
Why is no one that bothered?All this time
I've been usedZilch to do
For miles around
No one but you
For miles around
