Protecting Me

Aly & Aj

You, you're always there for me
When I need you most
Day and night you're by my side
Protecting me
When I feel like crashing down
You seem to be around
There you are
You're not that far 'cause
Whenever, where ever baby
You'll protect me no matter what
Hold me tight with all your might
And you'll never let me go protecting me
You listen to me when
I speak out loud and you
You know when my hearts been bent
When my life's tumbling around
You take me off the ground
You tell me every thing's okay
Whenever, where ever baby
You'll protect me no matter what
Hold me tight with all your might
You'll never let me go
You'll never let me go
You'll never let me go
You'll never let me go
When it's my turn to help you out
I'll gladly lift you up without a doubt
Whenever, where ever baby
You'll protect me no matter what
Hold me tight with all your might
You'll never let me go
Whenever, where ever baby
I'll protect you no matter what
Hold you tight, with all my might
And I'll never let you go
You, you're always there for
When I need you most
Day and night you're by my side
Protecting me, protecting me
