

# Broken Heart Tattoo

## No Justice

Looking up at the smile on your face  
Thinking 'bout all the time we waste  
Fighting about, screaming and shouting, about the things we chased  
Remember when we thought we had it all  
A pocket full of cash and our favorite song  
Dropped everything in a single second  
Every time you'd call I'm still spinning and I'm still loving you  
There's been some holes in the bottom, but we just wouldn't sink through  
The flame on the candle burning at both ends  
Lighting our way since we first met  
I mended the break on your broken heart tattoo That night when we stole that car  
Had no gas, so we couldn't get far  
Flashing lights, a wasted night, locked up behind bars  
All the things that I put you through  
The shit I did just to impress you  
Drunk as hell, 'bout killed myself, a time or two I'm still spinning and I'm still loving you  
There's been some holes in the bottom, but we just wouldn't sink through  
The flame on the candle burning at both ends  
Lighting our way since we first met  
I mended the break on your broken heart tattoo
