Beauty and the Beast

NoMeansNo

==========

Beauty lies in the eyes
Behold the eyes where it lies
If beauty lies in the eyes
Behold the eyes the beast
You, you're beautiful
You, you're beautiful
Beauty talks but beauty lies
Beauty wakes the beast inside
A feast of eyes where beauty walks
Behold the eyes the beast
You, you're beautiful
You, you're beautiful
Beauty struts and beauty flaunts
'cause this is what the eyeball wants
Beauty doesn't stand a chance
Behold the eyes of the beast
Those hungry eyes on beauty's parts
Those burning eyes on beauty's parts
Those burning eyes so dark and hot
Dark and hot dark and hot dark and hot
Behold the eyes
