

# '49 Mercury Blues

Brian Setzer

Broken down on the side of the road  
Damn brakes locked up in the rain  
Smoke's pourin' out from under the hood  
Stuck on the highway again I'm too young to quit  
Too old to change  
Baby, what am I gonna do?  
I got the chopped top, slammed down  
'49 mercury blues Can't find a phone, can't hitch a ride  
Who would stop for me, anyway?  
You would think that after all of  
These cars I've owned, I'd break down and join triple A I'm too young to quit  
I'm too old to change  
Baby, what am I gonna do?  
We got the chopped top, slammed down  
'49 mercury blues I got the '49 mercury blues  
By now you'd think I've paid all my dues  
Just think of all the trouble  
That car is puttin' me through Well, I guess like a tooth that needs to get filled  
It's gonna hurt and you're gonna get drilled  
And once you get it fixed, it happens all over again I'm too young to quit  
I'm too old to change  
Baby, what am I gonna do?  
I got the chopped top, slammed down  
'49 mercury blues, oh yeah I got the '49 mercury blues  
By now you'd think I've paid all my dues  
And just think of all the trouble  
That car is puttin' me through Well, I guess like a tooth that needs to get filled  
You know, it's gonna hurt and you're gonna get drilled  
And once you get it fixed, it happens all over again I'm too young to quit  
I'm too old to change  
Baby, what am I gonna do? I got the chopped top, slammed down  
'49 mercury blues, oh yeah  
I got the chopped top, slammed down  
'49 mercury blues, oh yeah
