Wonderful Place

N*E*R*D/N.E.R.D.

Yeah, aha, it's good
Damn
It?s setting in now
(So high)
'Cause cartoons are turning into real life
Lemons and limes are fighting
Fighting over straws like they were oil filled pipes
Why's the sun riding this song?
Why is this funny to me?
All of a sudden the mouse comes along
And what he sings brings harmony
You may not understand
Why there?s a smile on my face
It's 'cause this world can be such
A wonderful place
'Cause some of these companies
Two thousand began a race
Not me man, I see a wonderful place
(The world's a wonderful place)
My soul's in my smile, don?t frown just get up, get up
(Look at the birds)
My soul's in my smile, don?t frown just get up, get up
(Look at the bees, look at the skies
Look at the seas, it's a wonderful place)
My soul's in my smile, don?t frown just get up, get up
(Just look at the planes)
My soul's in my smile, don?t frown just get up, get up
(Look at the cars, look at the sun, look at the stars)
The wallpapers moving
My arms and my legs give a blur when I swipe
Sap is just oozing, the trees say
Smoke blocks the sun so for them it?s just night
The seven eyes looking through the clouds
But why is that funny to me?
And here comes the mouse singing loud
And what he sings it brings harmony
You may not understand
Why there?s a smile on my face
It's 'cause this world can be such

A wonderful place
'Cause some of these companies
Two thousand began a race
Not me man, I see a wonderful place
(The world's a wonderful place)
My soul's in my smile, don?t frown just get up, get up
(Look at the birds)
My soul's in my smile, don?t frown just get up, get up
(Look at the bees, look at the skies
Look at the seas, it's a wonderful place)
My soul's in my smile, don?t frown just get up, get up
(Just look at the planes)
My soul's in my smile, don?t frown just get up, get up
(Look at the cars, look at the sun, look at the stars)
My soul's in my smile, don?t frown just get up, get up
My soul's in my smile, don?t frown just get up, get up
My soul's in my smile, don?t frown just get up, get up
My soul's in my smile, don?t frown just get up, get up
