# White Light

## Llewellyn

There's a white light that carries me home
Helps me focus when I am alone
Keeps on teaching me how to be loved
And to love, and to love
Onward to forever
Our minds belong together
She's the good light that carries me on
Helps me focus on where I've gone wrong
Now you've reached me
It's time to forgive and forget, and forget
Onward to forever
Our minds belong together
Onward to forever
Our minds belong together
Tonight, this land
Belongs to me
The shifting sands
The shining seas
Onward to forever
Our minds belong together
Onward to forever
Our minds belong together
Tonight, this land
Belongs to me
The shifting sands
The shining seas
Won't you help my soul to grow?
To heal, it's all that I know
