Every Time She Passes By

George Ducas

She comes strolling down the street
Every time she passes by
My head spins when our eyes meet
Every time she passes byHer perfume fills my head
Every time she passes by
I hang on every word she says
Every time she passes byThis ain't infatuation, mere idle fascination
My love gets stronger
Every time every time she passes byI get tongue-tied and words don't come
Every time she passes by
I'm working all my courage up
Every time she passes byI wanna ask her on the town
Every time she passes by
Here's my chance, she's coming 'round
Here's my chance to make her mineThis ain't infatuation, mere idle fascination
My love gets stronger
Every time, every time she passes byLook at how she smiles at me
Before too long I know she'll be
The answer to my every dream come trueLook at us we're hand in hand
Every time she passes by
I know I'm a lucky man
Every time she passes byThis ain't infatuation, mere idle fascination
My love gets stronger
Every time, every time she passes by
