

Dance Like There's No Tomorrow

[Paula Abdul](#)

All I wanna do is stay right here on the floor
Get lost in the night and dance like there's no tomorrow
Don't care about the sunrise, somebody please just hit the lights
All I wanna do is dance like there's no tomorrow Today just wasn't my day, everyone's getting me so fed up
I've gotta find a way, I know what can make me feel better
Stepping out in my best, looking hotter than ever
Wherever the party is that's where I'll be in a second I'm so ready to move my body, forget about all my
problems
When I hear my song I'ma lose control, h-here I go All I wanna do is stay right here on the floor
Get lost in the night and dance like there's no tomorrow
Don't care about the sunrise, somebody please just hit the lights
All I wanna do is dance like there's no tomorrow I'm loving the atmosphere, feels like I'm floating in heaven
The music's all in my ear, taking over me, my heart's racing
Feeling so Hollywood, how I got everybody staring
Their eyes are the cameras and I'm loving all the attention Get up, 'bout to move my body, forget about all my
problems
They're playing our song, I'ma lose control, h-here I go All I wanna do is stay right here on the floor
Get lost in the night and dance like there's no tomorrow
Don't care about the sunrise, somebody please just hit the lights
All I wanna do is dance like there's no tomorrow Please DJ, don't say it's the last call
'Cause I know what it means
And I don't want you to play no slow song
I'm still building the nerve to talk to that guy
Just give me another song and make it right All I wanna do is stay right here on the floor
Get lost in the night and dance like there's no tomorrow
Don't care about the sunrise, somebody please just hit the lights
All I wanna do is dance like there's no tomorrow All I wanna do is stay right here on the floor
Get lost in the night and dance like there's no tomorrow
Don't care about the sunrise, somebody please just hit the lights
All I wanna do is dance like there's no tomorrow
