

# Don't Mention Tomorrow

**David Houston**

I know I'll be blue for a while yet till your memory finally goes I'll wait  
And these tears that keep falling around me mean a rainbow is on its way  
So don't mention tomorrow till I have time to forget yesterday I'm still in a state of confusion cause I'd planned  
a future with you  
And it's such a big change for my world to turn from happy to blue So don't mention tomorrow till I have time  
to forget yesterday  
(Don't mention tomorrow) till I have time to forget yesterday
