

# Love Serenade

## The Waifs

When the night-time comes you can hear  
My heart calling  
Calling out to you my one true love  
Thinking about you all of the while  
Thinking about you its making me smile  
Honey Im sitting on top of the world just  
Thinking about you In the morring light thats when Im feeling right  
Another day come, another day go, another day closer till I make you my own  
Honey Im siting on top of the world  
Just thinking about you I wouldnt say it if it wasnt true  
Honey Im in love with you  
Im going to show you what I can do Come over here youve gotta be told,  
My love for you is out of control  
Honey I am sitting on top of the world,  
Just thinking about you girl  
Im going to show you how much I care,  
Marry you and take you away some where  
Sit back in a rocking chair and rock all day with you my dear Cause I love you, I love you I love you I love  
you In the morrin, in
