

Winter (Skelecta Remix)

Daughter

Drifting apart like two sheets of ice, my love
Frozen hearts growing colder with time
There's no heat from our mouths
Please take me back to my rich youth And we were in flames, I needed I needed you
To run through my veins, like disease
And now we are strange, strangers It's different now
Gray faced
Eyes burnt out
Flames are gone
Gloves are on
I have a feeling
Love's gone back
Went to the cinema, losing our minds
With comic fever, shutting confined spaces
Lost in the dark, my heart taken
Resting on your heart And we were in flames, I needed I needed you
To run through my veins, like disease
And now we are strange, strangers Wait for
Me to
Degrade before
You go
Caring
Pray for
Waste of
Daylight
Speaks when
Sun burns keeping
Undeveloped
Out of revenge
And degrading
My youth and stained on our sheets
It's on a piece of me
It's on a piece of me Winter comes
Winter crush all
I've heard things that
I once had
