

# Stop Smiling

## The Vandals

Happy robots say "life is fine" - they're the ones I loathe - they're stupid or they're lying - or a little bit of both - ignore disasters and say that life is great - it never stops the smile on your shit consuming faces - The stupid fucking hippies - too stoned to see their lives are fucked - going with the flow - into the shitter they are sucked - and then they got these magic crystals - don't do a god damn thing - just stinking of pachoulli - while they choke on their ginseng - - Beating on a drum - you sing of quiet and peace, - burning marijuana - and take the time to hug a tree, - say no possessions, - but get all that you can, - you stink like shit and smile through it - Don't ever trust a happy man - Cheery retard masses, - with evil Osmond smiles - way too glad to be - 'cause "He" is on your side - and then they hand out propaganda - for sheep to join the cult, - collecting guns, - they rapt your daughters - but nobody's at fault - Beating on a drum - you sing of quiet and peace, - burning marijuana - and take the time to hug a tree, - say no possessions, - but get all that you can, - you stink like shit and smile through it - Don't ever trust a happy man - I don't want to go to heaven, - it's filled with pricks like you - I won't go inside the gates, - leave me in the waiting room - I'm sure that God hates you too - he thinks your an obsessed fan - see how you are? - I'll never trust a happy man - Never trust a happy man - The stupid - fucking hippies - too stoned to see - their lives are fucked - going with the flow - into the shitter - they are sucked.
