## **Strangers Again**

## **Ari Hest**

Long before we ever touched
Long before we knew too much
I wish we were strangers againLong before we ever kissed
Long before I ever missed you
I wish we were strangers againI want yesterday to come back again
Nothing is as simple as I once knew
Why can't everything be the way it was
Before the day that I lost you?Long before the afterglow
Long before our tears fell slow
I wish we were strangers again[Chorus]
