

Oh Mississippi

Lissie

oh mighty river
the mississippi's
turbulent waters
lull me to sleep please take my hand
i will go softly
your arms around me
you'll be my man the leaves are changin'
i cross this road
to make my last walk
in that warm sunshine oh mighty river
oh mississippi
oh all the troubles your banks have seen carry their stories from north to south
but 'round these parts you're westward bound the factories closin'
kids have grown so fast
lift up their woe please
as you flow past oh witness river
you have seen it all
now do your waters
have room for one more oh endless river
as you transcend
please take me with you
far from this land
