

This Is Violence

Soulfly

Your race towards an early grave
Your head explodes in a trance
The cloud bursts, thunder in your face
You raise the blade, it's time to pay...Justice

Vengeance

Freedom

Murder

Poison

Hatred

Wisdom

TerrorThis is violence - this is hate

This is violence - this is pain

This is violence - this is death

This is violence - this is hell

We found a thousand ways to burn up the planet

Onwards to peace with hate in our minds

Like fucking cancer, screaming inside

Welcome to hell, consuming fireHelter

Skelter

Seeking

Shelter

Karma

Burning

Manifest

Destiny...This is violence - this is hate

This is violence - this is pain

This is violence - this is death

This is violence - this is heeelllll!

We all raise to rot and die

Purification is just a lie

Corruption burns the sky

For salvation you must fightImmaculate conception

The wars we wage upon ourselves

The poison seeps in to every pore

Kill your idols, kill your law
