

# Dip

## Devin Dawson

We told them we were going to be here  
So don't we kinda gotta try  
To at least act like we care, till 11:45  
Maybe two songs, we'll give it two songs  
Unless the first one goes a little too long  
Nah, I don't wanna hurt anybody's feelings  
But the way you're leaning in says we're leaving  
So we're gonna hightail out of here  
To hell with trying to tell them goodbye  
Gonna tip toe, I know where, on the same page tonight  
You into getting gone and girl I'm catching on  
'Cause baby I been reading your lips  
So let's take a walk and give them all the hillbilly slip  
Yeah, come on baby let's dip, dip  
I'll be looking for a window  
If you keep looking like that  
It'll happen so fast, they'll never know  
That I'll be slipping out the back door  
Cause you'll be dancing to distract them  
And I'll be firing up the Eldorado, laughing  
Yeah then we're gonna get to disappearing  
Them Whitewalls gonna be squealing  
We're gonna hightail out of here  
To hell with trying to tell them goodbye  
Gonna tip toe, I know where, on the same page tonight  
You into getting gone and girl I'm catching on  
'Cause baby I been reading your lips  
So let's take a walk and give them all the hillbilly slip  
Yeah, come on baby let's dip, dip  
We're gonna bail on the party  
We're gonna ditch this place  
Yeah we might get caught  
But that's the risk we'll take  
They can call us whatever they want  
But girl I gotta get you alone so we're gonna dip  
Yeah we're gonna hightail out of here  
To hell with trying to tell them goodbye  
Gonna tip toe, I know where, on the same page tonight  
You into getting gone and girl I'm catching on  
'Cause baby I been reading your lips  
So let's take a walk and give them all the hillbilly slip

Yeah, come on baby let's dip, dipCome on baby, let's dip
