

Wild and Dangerous

Oxymoron

Things that are prohibited always had their own appeal
but the likes of me aren't disinclined to a thrill
Cast off your fear, scare them all
Cause their rules are made for breaking
or you're just tame or blind
Can live without the kicks in my brain
feeling the pulse, sometimes the pain
Why not freak out, there's so much you can do
Hold on, let go now 'cause I don't have no fear
[Chorus:]
Live WILD AND DANGEROUS
Get out and kick some ass
Live WILD AND DANGEROUS
Be a threat to the upper class
What else could you be in a bourgeois country like this
but a thorn in the ass of the authorities
