

# Give Me Some Kinda Magic

## Dollar

I was a young man choosing to be alone  
You were a young girl breaking out on your own  
It's the change you made in me  
And your smile can make me see  
That it's easy to try  
When I know that you're taking me high  
(You take me higher and higher)You give me some kinda magic  
And I don't wanna lose my hold on you  
You give me some kinda magic  
'cause you set me alight when I'm close to you  
(It shows)No good pretending don't wanna be alone  
(Don't want to be on my own)  
With you beside me we're making our house our home  
(We're going to make our house our home)  
It's the way you look at me  
'cause you set my spirits free  
And it's easy to try  
When I know that you're taking me high  
(You take me higher and higher when)You give me some kinda magic  
And I don't wanna lose my hold on you  
You give me some kinda magic  
'cause you set me alight when I'm close to you  
(It shows)
