Problems

Next

Problems, problems with your girl today
Problems, problems with your man todaySituation's hard to handle, got me goin' out of my head
There's so much pressure, I just can't deal
You think it's all about you and that sex appeal
But I got problemsSlickin' around on the L to the hotel
All around town, won't you let me know
Who's it gonna be him or me, it can't be threeProblems, problems with your girl today
Problems, problems with your girl todayHere we are, the two of us together
Takin' this crazy chance to be all alone
My man don't know that we been lovin' each other
'Cuz if he found out we'll have nothin', nothin' but problemsProblems, problems with your man today
Problems, problems with your man today
Problems, problems with your man today
Problems, problems with your man todayCan I get a witness, so many problems
Can I get a witness
Can I get a witness, so many problems
Can I get a witnessProblems, problems with your girl today
Problems, problems with your man today
Problems, problems with your girl today
Problems, problems with your man today
