## Pavement

When they fall in  
they fall in from the roof  
they grab on to me tightly  
as if i knew the way  
when i fight for something  
i fight because i care  
when i fight with you  
i fight but i don't care  
Everybody wants the questions to be asked  
the questions are the answers  
to questions in themselves  
ask me if i really need it  
ask me if you want to get hit  
hit it

Ask me if you want to be... fucked.
