Unforgiven

Twisted Psykie

INTRO music to 2:32
sniffle
I never knew what the matter was...
... I still don't...
You're a great man understand (or name?)
I'll always respect you for that (or I've always respected you for that)
... You taught me so much..
.. You saw yourself as weak and conflicted.
But to me, you were fearless; because you dared to question..
.. Why did you have to die..?
We had so much more to talk about...
huh...
I always believed that death was a fate far better than life...
For you will be reunited with lost loved ones
We will never meet again my friend..
tremble
I have a feeling that your God might object to me,visiting you in heaven..
What am I to do now..?
I hate you fine...

The hate from your body...
There is nothing that can console me now..

Chorus
Instrumental
Ahhh**
I object...
So do you?...
Ahhh**

6:26
Low voice**
Forgive me my friend...
For what I have done..
And for what I am about to do...

Chorus
Instrumental
Ahhh**

I object...
So do you?...
Ahhh**

End at 8:14
