Good Times

Phoebe Snow

Everybody get in the groove and let the good times roll
Got to stay here till we soothe our little souls
If it takes all night longIt might be one o'clock and it might be three
I don't care 'cos time mean nothing do me
We've been swinging since I don't know when
I might not, might not feel this good againEverybody get in the groove and let the good times roll
Got to stay here till we soothe our little souls
If it takes me all night longAll night, all night
All night, all nightAll night longEverybody, it might be one o'clock and it might be three
I don't care 'cos time mean nothing do me
We've been swinging since I don't know when
I might not, might not feel this good againEverybody get in the groove and let the good times roll
Got to stay here till we soothe our little souls
If it takes all night longAll night oh, all night
