It doesn't have to be this complicated
Or is it just me?I cherish you it's true
And this love, i value
If it's not meant to be
I'll bow to destiny
And settle for friendsLooking to the left, turning to the right
My life is full of no regrets
I'll settle, i'll settle for friendsChorus:
Friends, i'll settle for friends
All i want, is to be your friendFriends, we can be friends
All i want, is to be your friendYou tell me you're not ready
But i'm precious
You don't want to start something
You can't finishSometimes we're blinded by desire
What you want, not what you need
Then it's too late
To make ends meetChorusYour friend, your friend....(repeat)
